CALL FOR REPUBLICAN COUNTY CONVENTION.

The Weekly Barchord is said to have come out for the democratic party and the members of that organization

when it bears of Jay Gould's intended trip to Europe or sudden illness.

Good humor is so rare in the periodic literature that the following speech from the Philadelphia Times deserves at least passing notice. "When a book leveller skips to Canada how is he to order a cask. Was it the lady or the tiger?"

The United States has been making investigations in respect to Colorado with a view of finding homes for its overcrowded men. The Britishers are an economical, saving, and withal a very good people, and the more we can get of them the better. They are especially a manufacturing people and for this class there are good openings in that state.

The treasury department's decision to buy four and one half per cent bonds of 1907 at not to exceed 110 3-4, the figure paid for 1874 at 125 during this month and for the first week in December next. The aggregate amount will be \$5,000,000 required is forty millions. It is to be hoped however that congress adjourns before it will come to the reduction of the surplus. It is one of the important measures to come before that body.

Mr. D. J. Martin, formerly of the city has gone into the real estate business at present 1634 Curtis street, Denver. We wish him abundant success. Mr. Martin was for many years a resident of this city and sold many others of their real property. He understands all the duties of these offices in a very able and satisfactory manner. Before retiring he held several leading offices of trust with all fidelity and credit. Those who entrust their business to him may feel sure of being considerate will not be abused. He is accurate, careful and thoroughly reliable.

The dread death to which corrupt newspapers seem to be only exemplified by one of the Brooklyn papers. It appears that the street car companies interested financially in Greenwood Cemetery and the papers owned by the Senate and Executive passengers. All this because the company have been running cars on Sunday, and although behind time they have been well patronized. Two or three people who had been out to see their friends have been taken with pneumonia and died. Doubtless the long-suffering people of Brooklyn's control of the public conveyances will be more alarmed than ever that now the Brooklyn companies may well stop to think whether they can't weaken the newspaper's influence for good.

In Philadelphia the pay of the conductors is \$2 for a ten hour day. In Boston, Louisville, Cincinnati, Chicago, Detroit, and other cities the conductors get 2½ cents per hour for the same time. That is to say in New York they get one cent an hour, in Boston one half cent per hour, in Brooklyn, Louisville, Cincinnati, Chicago, Detroit, twenty and three sixteenths cents per hour, and in Philadelphia about twenty-five cents per hour. And yet one of the items of living in the Quaker City is the low rate of fare that is charged, namely that in Philadelphia a man can ride for seventeen cents as far as he can for twenty-five in Boston and seventeen cents per hour. There are no exceptional circumstances which should influence a judgment in favor of the "waiting delegate" before a man of education social disorders [illegible]
